CAREER SUMMARY:

Enthusiastic programmer skilled in making responsive websites utilizing HTML/CSS/JS and various frameworks. A detail-oriented, organized, and responsible employee that can work at fast pace to meet deadlines. Dedicated team player ready to collaborate and contribute to company success. I am always willing to learn new technologies that I can use to further enhance my web development skills.

EDUCATION:

Northern Alberta Institute of Technology

Digital Media and Information Technology – Web Design & Development Concentration

January 2020 – April 2023

Edmonton, AB

- Completed the program with honors.

SKILLS:

- Attention to Detail
- Written Communication
- Hard Knowledge in HTML, CSS, and JavaScript
- Critical Thinking
- Team Player
- Self-Motivated and Organized
- Designed and created websites using formed mock-ups
- Created various apps using the React library
- Researching and testing various solutions that I can use to enhance speed and functionality of my projects.
- Proficient in using CSS frameworks such as Tailwind CSS and Bootstrap.
- Implementing best SEO practices to ensure that they appear on search engine results page.

PROJECTS:

Functional React Dashboard

- Created the ability to add, update, display, and remove product using React Hooks and React packages. Also included a preview of product so users see the finished product result.
- Built the user interface from scratch using the styled-components to build custom components by writing CSS in JavaScript.
- Utilized Google Firebase API to store images and data.

Autism Today Website Redesign (Capstone)

- Find and meet up with the client to have an experience dealing with future clients and how everything works after graduating school.
- Produced both low and high-fidelity frameworks that meet our client's needs while also recommending them an alternate solution on some of their ideas.
- Incorporating various WordPress plugins that will further enhance our client's website functionality while preserving a user-friendly environment.

WORK EXPERIENCE:

Papa John's Pizza

Position: Team member

Date: August 2016 – Current

- Operating the cashier area welcoming people and solving any issues regarding customer orders. Also responsible for organizing and making products at fast pace while making sure that the product is finished on time as well as making it look presentable to serve.
